

With the current exchange rate now is a perfect time for shipping motor vehicles to Sri Lanka. We are actively shipping hundreds of vehicles to Sri Lanka a year, for this reason we can offer some of the most competitive prices on the market along with a reliable and efficient service.

The vehicle(s) would be loaded and sealed inside a dedicated steel container by our own highly trained staff. This would take place in our secure warehouse close to the port of Felixstowe, from there it would be shunted to Felixstowe quay ready to be loaded to the next vessel bound for Sri Lanka.

Vehicles can be shipped alone in a 20' container or along with another one or two vehicles in a 40' container. As you would have your own dedicated container extra items would be able to be loaded inside the vehicle(s) at no extra cost however we would need a detailed inventory of the items and it will be classed as a separate import by customs in Sri Lanka.

Making a booking with us very simple and easy. We only require a few pieces of information; the V5 (Log book) original for BVI, Pro-forma invoice and a scan copy of the letter of Credit to be handed in at the time of handing over the vehicle.

- The issue of "Bill of Lading" within 48 hours after the vessel has sailed
- "Letter of Credit" payment will be released faster than any other shipper in UK, once you submit all the documentations correctly to your bank in UK
- Car shipment, Commercial and Personal Baggage freight to Sri Lanka weekly
- Sailing within 18 days

Our service is fully comprehensive, through our local agent to unload the container with DO release, you should expect to pay around US \$ 225- 295.

Our documentation fee of £50.00 will apply.

***Note - Awaiting new Government Regulation and Taxes for the importation of Vehicles***
